

Amplify Your Social Impact with Payroll Giving.

Amplify your organisation's social impact, help your employees save money, and foster a culture of philanthropy.

GoodPAYE is the UK's leading Payroll Giving platform that makes it easy for your employees to donate to any UK charity, tax-free, directly from their pay - no hassle, no fuss. In today's world, where employees seek purpose as much as their salary, GoodPAYE helps you stand out as an employer who genuinely cares. Best of all? It's completely free for your organisation and requires minimal effort to manage.

How does it work?

- 1 Employees choose their charities**
Your team selects their favourite charities through a simple donation form, which can easily be added to your benefits platform.
- 2 Track donations anytime**
You and your employees have 24/7 access to the GoodPAYE platform to monitor donation activity from a company wide and employee perspective.
- 3 Seamless payroll integration**
Each month, download the donation report and upload it to your payroll system for automatic deductions on payday.
- 4 One-step donation transfer**
Transfer all employee donations in one single payment, and we'll take care of distributing the funds to their chosen charities.

GoodPAYE is 100% charity-owned by five of the UK's largest charities. We are dedicated to driving positive change with all profits staying within the charity sector.

Donations that go further

Donations are deducted before income tax is calculated, meaning employees pay less, but their charities receive more. For an average tax rate payer, a £10 donation will only cost them £8.

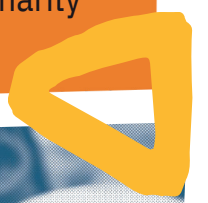

Employees in full control

Employees sign up in less than a minute and have 24/7 access to their account where they can add charities, track donations, and see their impact.

Support any UK Charity

Any UK charity can be supported through Payroll Giving, allowing your workforce to donate to their own causes and your organisation's charity partners.

Effortless Payroll integration

The all-in-one platform automates key tasks, making payroll management fast and effortless for your team, saving your organisation both time and money.
